

The background of the entire image is a dense, repeating pattern of Moroccan tiles. The tiles feature various geometric and floral motifs in muted colors like beige, light blue, and soft green, set against a light grey base. The patterns include stars, diamonds, and stylized flowers.

What are Moroccan Tiles?

Moroccan pattern cement tiles, also known as encaustic tiles, are handcrafted tiles that are made by mixing pigments with cement. They are typically made in geometric or floral patterns and can be used for flooring, wall decor, and even as a backsplash. They are often used in Mediterranean and Middle Eastern architectural styles, and are known for their durability and unique designs. They are made by pouring a mixture of cement and pigments into a mold, and are then pressed and cured to harden.

What is the finish of a Moroccan Tile ?

They are available in Matt Finish but can be polished if required.

Where can Moroccan Tiles be used ?

It can be used both Indoors and Outdoors.

What size are available ?

At AFINISHES, Moroccan Tiles are available in only 20cm x 20cm (8" x 8") size. We have some designs available in 30cm x 30cm (12" x 12")size too.
